

Crime Watch Suggests The Following

- **Before hiring anyone have good references of those that will be doing the work. (friend, neighbor, Angie's list or BBB)**
- **Do not leave garage doors open when you are not able to watch them, in addition keep your interior door locked to your house. Don't let anyone in your house that you don't know. i.e. drink of water, bath room use or to use your phone.**
- **Do not tell anyone other than trusted sources that you are going to be away for an extended time. Especially the people that are working for you and even if you know them. They could pass this information to someone unintentionally.**
- **Please do not leave things in your car that are visible (day or night): Purse, phone, tools, anything of value.**
- **Report anything (to the Carmel Police) that you think is suspicious: A car, person, biker, people that are in your opinion that look or acting suspicious – be aware and make someone else aware.**

Let's be safe!
